BALLINGER IS SLATED TO GO

Secretary of the Interior Must Leave Cabinet.

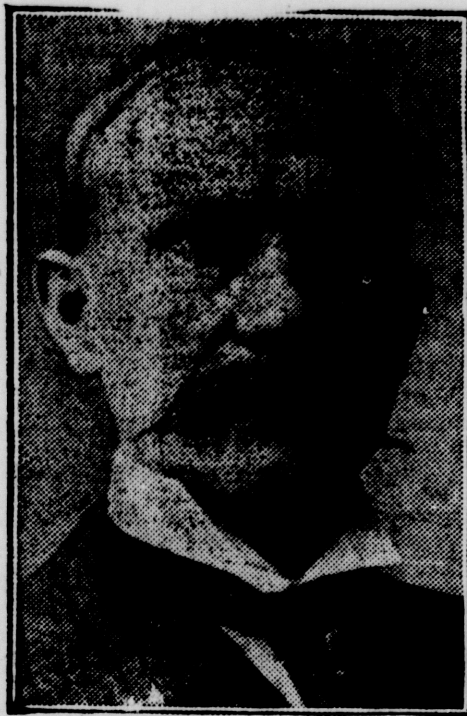

PRESIDENT TAFT WILL ACT

His Friends Have Told Him Plainly That His Attempt to Vindicate Both Pinchot and Ballinger and to Keep Them Both in His Administration Is Being Laughed at by the Country.

Washington, Nov. 19.—President Taft's reopening of the land office controversy means that Richard A. Ballinger, secretary of the interior, will have to get out of the cabinet.

Chief Forester Gifford Pinchot did not tell the president to choose between him and Ballinger, but the president has been told very plainly by friends that his attempt to vindicate both Pinchot and Ballinger and to keep them both in his administration is being laughed at by the country. This, combined with the fact that no body knows better than the president how far short of being a triumphal procession was his tour of the West and how entirely out of accord with him is that section of the country on the tariff, conservation and currency reform, has obliged Mr. Taft to take action. Plainly, the president has been told that if Ballinger is left in the cabinet, if Director Newell of the reclamation service is allowed to go out of office, and if the Glavis charges against Ballinger are not given the serious consideration they deserve, it will be difficult for him to keep the people of the country persuaded that he is in earnest in his announced purpose of standing by the Roosevelt conservation policies and programme.

Further, the president has been told by senators and others having a personal political interest in the situation that unless he changed his attitude and policies with regard to the Ballinger-Pinchot affair, he would have to take the responsibility for having created a political sentiment in several of the Western states which may mean defeat for the Republican party. The political side of the situation is said to have impressed Mr. Taft, who is already concerned over the danger

RICHARD A. BALLINGER.

of a Democratic house in the next congress, and his likelihood of succeeding himself in the White House.

Since congressmen and senators have been getting back to Washington during the past week or so, the president has been hearing some rather unpleasant things about political conditions in the Middle West and West. He has been told, in short, by men of his own party, that his speeches have failed to win the West to a satisfied frame of mind concerning the recent tariff revision; that the voters of that section do not take kindly to ship subsidy and a central bank currency issue, and that if these are to be his policies, and the party is also to be obliged to carry the dead weight of his endorsement of Aldrich and the load of Cannonism, it will be about all it can stagger under without having also to tote Ballinger, his anti-Roosevelt conservation ideas and the Alaska coal lands scandal.

The two biggest questions as to the legality of Ballinger's actions are contained in the admission that he did accept a retainer from the Cunningham claimants a few months after resigning as commissioner of the general land office, and that he did acquaint the Cunningham people with the nature and scope of the evidence presented against them by Glavis while the claims were undisposed of.

RICHARD W. GILDER IS DEAD

Editor and Poet Dies Suddenly in New York.

New York, Nov. 19.—Richard Watson Gilder, editor-in-chief of the Century Magazine since its foundation in 1881, and widely known as an author and lecturer, died unexpectedly at the house of his sister, Mrs. Schuyler Van Rensselaer, of angina pectoris.

Mr. Gilder was taken ill Nov. 3 during a lecture. The illness was first diagnosed as simply indigestion, and he was up and about the following day.

Mr. Gilder was born at Bordentown, N. J., in 1844.

Swenson May Get Post.

Washington, Nov. 19.—It is understood semi-officially that the president is seriously considering naming Lauritz Swenson, now of Minneapolis, to a diplomatic post, either in Europe or South America, and that he has had a conference with Secretary Knox to that end. Mr. Swenson was for several years minister to Denmark.

Girl Killed by Her Brother.

Bemidji, Minn., Nov. 19.—Louise Gagnon, the nine-year-old daughter of Vital Gagnon, living near Quiring postoffice, was shot and accidentally killed by her ten-year-old brother, who aimed a loaded rifle at her and pulled the trigger. The girl expired with scarcely a perceptible tremor.

INVESTIGATION BY CONGRESS

To Be Made Into the Alleged Sugar Frauds.

ONLY WAY IT CAN BE DONE

No Other Means of Revealing the Amount of Plunder Obtained and the Names of the Plunderers—Treasury Department Will Not Make Public the Names of the Suspects—Curious Facts Brought Out.

Washington, Nov. 19.—There is to be an investigation by congress of the sugar trust. There is no other means by which the amount of the plunder and the names of the plunderers can be revealed.

The treasury department, which has official reports giving the names of suspects and perhaps those who should not be in the category of suspects, but worse, will not make these reports public, even after repeated demands. Documents in the possession of an executive department can be dragged out of it only by congress.

It is not likely that President Taft will hide behind the theory that "confidential reports, if given out, are against the public interest." The president is reported to be as zealous as the department of justice that the full truth be revealed.

A treasury official pointed out the curious and edifying fact that Special Agent Bainbridge committed suicide in Paris after complaining bitterly that he could get no answers to his letters. Bainbridge was looking after diamond and silk thieves by the undervaluation routes.

Circumstances Remarkable.

Richard Parr could get no answers to his complaints, that is, specifically. It is reported here that a federal attorney in New York said Parr "was not right." It was alleged that Bainbridge was not right, either. It is more than remarkable that two such important witnesses could be afflicted with mental obliquity under the same circumstances. Claims are made that Richard Parr did not discover the scheme by which the sugar steals were made possible. His friends here say he did and that the proof is on Secretary MacVeagh's desk.

Unclassified laborers in the New York customs house, the files of the civil service commission show, were put to work as sugar samplers between the years 1899 and 1902 in contravention of law, these positions being in the classified service.

To what extent this was done is not disclosed, but the fact is that such work was given for some time during his service to Henry C. Corsa, an unclassified laborer, whose recital of alleged bribery in sugar sampling was printed Thursday.

More than this, on Aug. 28, 1902, the civil service commission called the matter to the attention of Leslie M. Shaw, then secretary of the treasury, and his attention was further directed to the fact that several investigations made by it since 1899 indicated practically the same state of affairs and that each time the department had explicitly instructed the appraiser at New York to discontinue the practice.

Maniac Leaps to His Death.

Driscoll, N. D., Nov. 19.—B. E. Cope, an insane man, who was being taken from Buffalo, N. Y., to Salem, Ore., jumped from Northern Pacific train No. 5 when the train was about 200 feet west of the depot and was instantly killed.

RELATIONS REACH A CRISIS

American Legation at Santiago, Chile, May Be Closed.

Washington, Nov. 19.—The Alsop claim against Chile for more than \$1,000,000, which has been pending for upwards of thirty-five years, has assumed a critical stage. Mr. Dawson, the American minister to Chile, is now on his way to Washington, having left Mr. Pierpont in charge of the legation, and it is not improbable that if the Chilean government does not consent to a final settlement of the claim within the next few days, or agree to a protocol for reference to The Hague, the American legation in Santiago will be closed and the archives placed in the hands of the American consul for safekeeping. Intimation to this effect has been given to Minister Cruz, representing the Chilean government in Washington.

What further action may be taken by the government at Washington will depend upon the course pursued by the Chileans.

Count Boni May Wed Again.

Paris, Nov. 19.—It is stated here that Count Boni de Castellane has been in Rome for the purpose of trying to arrange for the remarriage of his daughter, who is now the Princess of Monaco, and is assumed that the count is a former wife who has married again.

VAST EXPENDITURES FOR IMPROVEMENTS

Hinge Upon Attitude of President and Congress.

New York, Nov. 19.—Responsible executive heads of several leading railroad systems who have recently conferred with President Taft have asked him to carefully weigh his recommendations to congress upon proposed legislation affecting railroads.

It is pointed out in this connection that grave results may follow any unwise course or radical efforts to change existing conditions. Many leading systems have not yet completed their financing for improvements, betterments and extensions in 1910.

Improvements to cost several hundred millions are contingent upon the successful carrying through of financial plans not yet consummated and these in turn depend upon developments of the near future.

It is estimated that as much as \$500,000,000 for next year's expenditure may hinge upon the attitude of Mr. Taft and congress. A leading railroad authority says:

"I believe that the president will give most careful consideration to all phases of the subject and in his message will see a conservative and just way out."

"The railroads of America, representing nearly \$2,000,000,000 of invested capital, are just emerging from the panic. They are trying to recover from the lean period and put their lines in that state of efficiency which the prospective tariff of 1910 and the general progress of the nation demand."

"Now come the interstate commerce commission and other well meaning people with demands that the traffic experts of the various roads—after a lifetime spent in mastering the intricacies of railroad rates—shall become mere recommendatory clerks without power to make rates effective."

"Atop of this are the demands of nearly all classes of railroad employees for higher wages. In nearly all cases these demands are right and must be met, wholly or in part, by the railroads."

RECOGNITION OF THE INSURGENTS

Practically Made by Washington Government.

EXPLANATION IS DEMANDED

State Department Wants Information

From Nicaragua Regarding the Execution of Two Americans, Who Were Put to Death by Order of President Zelaya When They Were Found in the Rebel Army.

Washington, Nov. 19.—Announcement that this government is tired of the high handed actions of the small Central American republics practically was contained in a dispatch sent to the Bluefields Steamship company, which sought the protection of the state department from interference by the insurgents now operating against President Zelaya.

An hour later a peremptory note, couched in diplomatic language, but none the less direct, was delivered to Senor Felipe Rodrigue, charge d'affaires of the Nicaraguan legation, demanding a full and complete explanation of the execution of the two Americans, Leonard Grace and Leroy Cannon, who were executed by order of Zelaya when they were found in the insurgent army.

Pending a satisfactory explanation of the occurrence President Taft has refused to recognize Isidoro Haza, the new Nicaraguan minister. Mr. Taft is thoroughly aroused by the actions of the Zelayan government and apparently is determined to make the lives of United States citizens much safer and considerably more respected in Central America than they have been hitherto.

The attitude of the government was clearly shown when the state department sent a dispatch to the Bluefields Steamship company, the headquarters of which is in New Orleans. The company's regular steamer was about to set sail for Bluefields, Nicaragua, with a miscellaneous cargo, counted in which were a number of rifles and other munitions of war.

Result of a Conference.

The dispatch was the result of a conference between the president and the secretary of state and carried full weight. It gave the steamship concern no encouragement and practically recognized the revolutionary forces operating against the Zelayan administration, a proceeding for which there probably is no parallel in the records of this government.

Nicaragua has been one of the Central American republics that has given this government more trouble in the past few years than any other, save perhaps Venezuela under the sway of President Castro. The attitude of the United States, as shown by its apparent recognition of the Nicaraguan insurgents, indicates to diplomats here that this government would welcome the overthrow of the present administration there. It is well known that President Zelaya's attitude toward Americans and Amer-

ican interests for some time has been anything but satisfactory.

The state department maintained a quiet and reserve that was described by one diplomat as "ominous."

The execution of the Americans is held here to be indefensible.

While no orders have been issued for the dispatch of war vessels, other than the Des Moines and the Vicksburg, to observe conditions on both the Atlantic and Pacific coasts, there are plenty of vessels in Caribbean waters that can be sent to the scene on the shortest notice, while there are other vessels within call on the Pacific coast.

Iron Found Near Winnipeg.

Winnipeg, Man., Nov. 19.—A deposit of iron ore has been found within 400 yards of the city limits, and the discoverer says he has traced the vein six miles. He visited a local banking house with samples and an assay certificate from Ottawa showing the ore to be 90 per cent pure.

ALDRICH TO MAKE REPORT

Will Inform Monetary Commission of Sentiment in West.

Washington, Nov. 19.—The national monetary commission will meet here on Saturday when Senator Aldrich, chairman of the commission, will make a report on the sentiment of Western bankers toward currency reform.

Mr. Aldrich will outline also the attitude of European financial experts respecting changes in this country's monetary system.

It is expected that the various subcommittees which have been conducting investigations in Canada and in this country will submit preliminary reports.

Senator Burrows, who has arrived in Washington, said he was in hearty accord with Mr. Aldrich's statement that it would be unwise for the monetary commission to attempt to have its recommendations considered by congress this winter.

In Order of Importance.

"How's yer wheat?"
"First rate."
"Pigs doin' well?"
"Fine."
"That puny colt come round all right?"
"Ee sure did."
"Glad to hear things is so likely, Bill. How's yer wife?"—Louisville Courier-Journal.

Bert McCauley, who is soon to leave for Reno, Nev., to take a course of Civil Engineering at the university there, is being royally entertained at a series of farewell parties by some of the young ladies of the town. Last Thursday evening, Miss Mae Trent entertained at a dinner party in Mr. McCauley's honor. Last evening, Miss Emily Quinn entertained at bridge whist. Miss Abbie Hennessey made high score and Mr. McCauley received the consolation prize. Tuesday evening next, Miss Lillian Smith will entertain Mr. McCauley at a private dancing party at her home on North Ninth street. The feature of the evening will be the introduction of a new dance by Miss Lucile Lenore, a cousin of Mr. McCauley, from St. Paul.

Jacob Schmidt's bottle beer is delicious. We have the agency. Order a case. Phone 164, John Coates Liquor Co. 1t

HOUSEHOLD ECONOMY By Mrs B. W. Talcott.

The average cookery book is a source of much extravagance, especially to young and inexperienced housekeepers, who must depend upon it. Recipes calling for from six to 16 eggs and everything that is expensive in proportion are common, while cheap substitutes or other hints on economy are rare. The household page of the city daily is but little better, as it presupposes an annual income of \$3000 to \$5000 or more. The articles which will appear in this column are intended to aid those whose income is \$1000 per year or less. Young housewives, cooking for two, should remember that most recipes are intended for a family of five and should therefore use a proportionate amount of ingredients.

Now that meat is so high priced it becomes necessary in most households, to either cut down the allowance of meat or use cheaper cuts. We give a few suggestions for the use of the latter.

In using cheap cuts of meat or left overs to suit the deal depends upon the seasoning. This one can vary to suit the tastes of the family. Fried onion, minced parsley or celery, celery salt, paprika or poultry seasoning may be added to the usual salt and pepper. A very small quantity of beef extract added to soup gravy or dishes made from cold meat adds greatly to the flavor.

A food chopper will be found a means of economy as well as convenience, as cold beef steak, ham or any other odds and ends of meat may be chopped fine in a few moments with little labor, and a great deal that is usually thrown away can be made into savory dishes. The vegetable plate which usually accompanies the chopper will be found handy for chopping vegetables for soups, stews or chow chow or other pickles. A very fine plate may be had which is used for making peanut butter; which is an excellent substitute for meat for supper or in the lunch pail.

Meat and Vegetable Stew
Cut one pound of boiling beef in pieces an inch square, cover with boiling water and let simmer. Peel and slice thin five medium sized potatoes, two onions and a carrot and

add the meat after it has been stewing an hour; then stew all together for an hour and a half. A half pound of salt pork may be substituted for the beef, or the hard dry ends of dried beef chunks may be used. To vary this receipt still further, brown the onions in fat and add two table spoonfuls of rice. Cold rice, macaroni, peas, beans or other cold vegetables may be added. A brown stew may be made by browning the meat before stewing.

GATHERED HERE AND THERE

The Aitkin Age is very enthusiastic over the results of manual training in the Aitkin schools and expresses the opinion that this branch should occupy half of the school hours.

Later reports indicate that McCully, the Wright mail carrier, who was supposed to have been accidentally shot by a deer hunter, died of exposure, having become lost in a swamp in a storm. The man who came into Marquette a few days ago and reported that his father and two brothers had been killed by deer hunters has disappeared and it is believed that the story is either a fake or a hoax or that the man is mentally unbalanced.

M. & I. MUST BUILD ANOTHER BRIDGE

Structure at Tenstrike Rendered Unfit to Carry Trains by Efforts to Fill Hole

WILL BEGIN WORK SUNDAY

It is Expected that the Bridge Can be Completed for Use in About Two Days

The Minnesota & International railway is having all kinds of trouble with the sink hole at Ten Strike. About two months ago the company undertook to put in a stone culvert and fill the hole or valley, which is not to exceed two hundred feet in width. Since that time about 6,000 car loads of dirt have been dumped into the hole and the end is not in sight yet. The pile bridge which had heretofore spanned the hole was crowded so far out of line by the dirt which seemed to settle to one side, that it was necessary to swing the bridge off the piles and block it up on the dirt which had been dumped in. Then the bridge began to sink and today it got so bad that the train from the north was about four hours late. It has now been determined to put in a new pile bridge and the pile driver will be sent up from here tomorrow, Saturday night. It is probable that the passengers on No. 32 will be transferred Monday morning, but it is expected that the bridge will be ready for business by Monday night. Two bridge crews have been ordered to the scene and every effort will be made to rush the work. General Manager Gemmell and Train Master Warner, are both on the ground, as well as D. S. McFarlane, master carpenter, and Harry Mills, roadmaster.

Mrs. Louise Hite, 428 Outlen, St. Danville, Ill., writes, October 1st: "Foley's Kidney Pills started me on the road to health. I was treated by four doctors and took other kidney remedies but grew worse, and was unable to do my housework, and the doctor told me I only could live from two to six months. I am now so much better that I do all my own work, and I shall be very glad to tell everyone afflicted with kidney or bladder trouble the good results I received from taking Foley's Kidney Pills." Commence today and be well. Do not risk having Bright's Disease or Diabetes. H. P. Dunn. mwf-w

TWENTY YEARS AGO

Judge George W. Holland was seriously if not fatally injured Saturday night by being thrown from a buggy while coming from Perch Lake with a party of friends. The buggy tongue gave away while crossing the Mississippi river bridge, and he was thrown out, striking on his head. A blood vessel in his brain was ruptured and it has resulted in paralysis of the right side. Physicians state that if the blood absorbs and does not clot on his brain he will recover. The greatest sympathy is expressed on all sides and it is sincerely hoped by every person in the city that he will recover as his death would be a calamity, not only at home but to the entire northern part of the state.

Mr. David Turner and Mrs. Sarah Dewar, of this city were united in marriage Monday, November 4th. The bride has for several years been

the proprietor of a restaurant in East Brainerd and has many friends who will be pleased to hear of the event. The groom is a locomotive engineer formerly employed on the Northern Pacific railway, but now working on the St. Paul & Duluth.

After the 24th inst., when trains begin running on the cut-off, Brainerd will have but one passenger train each way daily. This will be extremely inconvenient for our people who go to St. Paul and Minneapolis to do business. The scheme to put on a train to leave here early in the morning and return in the evening should be pressed upon the company.

COMMISSION IS APPOINTED

Will Promote Improvement of River
Transportation.

St. Paul, Nov. 19.—Fresh impetus
was given to the movement for deeper
waterways when Governor A. O. Eber-
hart appointed a state waterways
commission, the work of which will
be to promote such projects for the
improvement of river transportation
as shall be found advisable after in-
vestigation. Although until the meet-
ing of the next legislature the new
commission will be somewhat handi-
capped because of lack of funds, the
work will be taken up and advanced
as much as possible. When the legis-
lature meets it is expected that the
commission will be aided by appro-
priation and its scope of action defined
by statute. The following were ap-
pointed:

Colonel James H. Davidson, St. Paul,
chairman; Alexander McDougal, Du-
luth; W. D. Washburn, Jr., Minneapo-
lis; L. C. Spooner, Morris, and Theo-
dore Wold, Winona.

With the appointment of the com-
mission, Minnesota aligns itself with
Wisconsin, Illinois, Iowa and other
states which already have such bodies
to aid in the general movement for im-
proved inland waterways.

BUT ONE BODY RECOVERED

Debris Prevents Crews From Reaching
Others.

Cherry, Ill., Nov. 19.—With the re-
covery of one body, believed to be
that of Ole Frieberg, the location of
nineteen others which could not be
rescued, near the ventilating shaft,
and a determined attack on the fire
through the main pit, work of reaching
the 300 bodies in the St. Paul mine
progressed rapidly. The airshaft, fol-
lowing the daring exploration which
resulted in the locating of twenty
dead, was closed and a full stream of
water directed into it. Then the main
shaft was attacked. The temperature
of this shaft has been well over 100
degrees, but continuous sprinkling re-
duced it to about 90 degrees.

Men in helmets first descended to
the fatal second gallery. They report-
ed the mouth of the drift badly blocked
by timbers and mud, but the fact that
their safety lamps were not extin-
guished indicated the absence of black
damp. The next squad to descend
went without helmets and reported
conditions perfect for an attack on the
flames within the gallery.

Various crews made the descent.
They reported there was little heat at
the mouth of the gallery, but that
search for bodies would not be prac-
ticable until the blocked opening had
been cleared of debris.

Beyond these obstructions the dead
are believed to lie in heaps as they
fell in their last despairing rush for
the shaft.

Merchant Freezes to Death.

Duluth, Nov. 19.—David Kanges, a
well-to-do merchant of Ely, Minn., was
found frozen to death sixteen miles
south of Ely. He disappeared last
Saturday. Kanges shot a deer, and
after conveying it across Eagles' Nest
lake on a raft lost his way in the
woods when it became dark. He
leaves a wife and child, who live
abroad.

USUALLY ONE DOSE ENDS INDIGESTION

Heartburn, Gas, Dyspepsia and other
Misery Goes Before you

Realize it
RELIEF IS WAITING FOR YOU
Out-of-Order Stomachs Feel Fine
Five Minutes After Taking
a Little Diapiesin

If your meals don't fit comfortably,
or you feel bloated after eating and
you believe it is the food which fills
you: if what little you eat lies like a
lump of lead on your stomach; if
there is difficulty in breathing after
eating, eructations of sour, undigested
food and acid, heartburn, brash or a
belching of gas, you can make up your
mind that you need something to
stop food fermentation and cure indi-
gestion.

To make every bite of food you eat
aid in the nourishment and strength
of your body, you must rid your stom-
ach of poisons, excessive acid and
stomach gas which sours your entire
meal—interferes with digestion and
causes so many sufferers of dyspepsia,
sick headache, biliousness, constipa-
tion, griping, etc. Your case is no
different—you are a stomach sufferer,
though you may call it by some other
name; your real and only trouble is
that what you eat does not digest,
but quickly ferments and sours, pro-
ducing almost any unhealthy condi-
tion.

A case of Pape's Diapiesin will cost
50 cents at any pharmacy here, and
will convince any stomach sufferer
five minutes after taking a single
dose that fermentation and sour stom-
ach is causing the misery of indi-
gestion.

No matter what you call your
trouble, catarrh of the stomach, nerv-
ousness or gastritis, or by any other
name—always remember that a cer-
tain cure is waiting at any drug
store the moment you decide to begin
its use.

Pape's Diapiesin will regulate any
out-of-order stomach within five
minutes and digest promptly, without
any fuss or discomfort, all of any
kind of food you eat.

COTTON EXPORTS OF THE UNITED STATES

Last Month They Were the
Most Valuable on Record.

Washington, 19.—Cotton exports
last month exceeded in value those of
any earlier month in the history of
the cotton trade of the United States.
The total value of cotton exported in
the month of October, 1909, was, ac-
cording to the latest reports of the bu-
reau of statistics of the department
of commerce and labor, \$88,883,350,
while no other month ever reached the
eighty million dollar line in the value
of cotton sent out of the country. The
value of the cotton exports for the ten
months ending with October, 1909,
was \$328,526,885, against \$316,693,265
in the corresponding period of 1907,
the highest record ever attained for a
like period.

This highest record of value of cot-
ton exports, made by the month of
October and by the ten months end-
ing with October, 1909, suggests that
the value of cotton exported in the cal-
endar year 1909 may probably exceed
that of any earlier year in the history
of the export trade, and should the
figures for November and December
equal those of October, the total value
of cotton exported would cross the
five hundred million dollar line.

This high-water mark in the value
of cotton exported is the result of the
combination of large quantities and
high prices. The quantity of cotton
exported in the ten months ending
with October, 1909, was 2,979,752,254
pounds, a total larger than that in the
corresponding period of any earlier
year except 1905.

MINNESOTA MAN A VICTIM

Tonias P. Lien of Rushville Killed by
Mrs. Belle Gunness.

La Porte, Ind., Nov. 19.—Another
victim of Mrs. Belle Gunness, arch
murderess, has been identified as
Tonias Peter Lien of Rushford, Minn.
Samuel P. Lien, who recently returned
from a sea cruise of three years in the
Pacific ocean, identified a watch that
had been found in the burned ruins of
the Gunness house as one that be-
longed to his brother Tonias.

On his return home from sea last
week Lien learned that his brother
had gone to La Porte on April 2, 1907,
following correspondence with Mrs.
Gunness, whose advertisements for a
husband he had read in a Norwegian
paper, and had not been heard from
by relatives since. Tonias had taken
\$1,000 with him, sewed in his clothes,
to pay a mortgage on Mrs. Gunness'
farm, it was learned. In return for
this money Mrs. Gunness was to be-
come his wife.

As relatives in this country were
not conversant with Lien's dealings
with Mrs. Gunness, his whereabouts
was unknown until his brother re-
turned home and unraveled the mys-
tery by discovering the correspon-
dence.

Lien's body was one of the ten hor-
ribly mutilated corpses found buried
about the Gunness yard.

OLD TROUBLES ADJUSTED

Labor Convention Settles Some An-
cient Difficulties.

Toronto, Ont., Nov. 19.—The tenth
day of the convention of the American
Federation of Labor was taken up by
the report by the executive committee
on adjustments.

The case which is most generally
familiar to trade unionists throughout
the United States and which occupied
the greater part of the day was that
of the elevator constructors and the
machinists. Chicago has been the
principal seat of trouble between the
two organizations. For two years
there has been conflict between the
two organizations on the question of
jurisdiction in the works of the Otis
Elevator company at Chicago. It has
been a game of seesaw—the elevator
constructors would have control of
the situation for a while, then the
machinists would get in, and this
changing of conditions would be re-
peated over and over again.

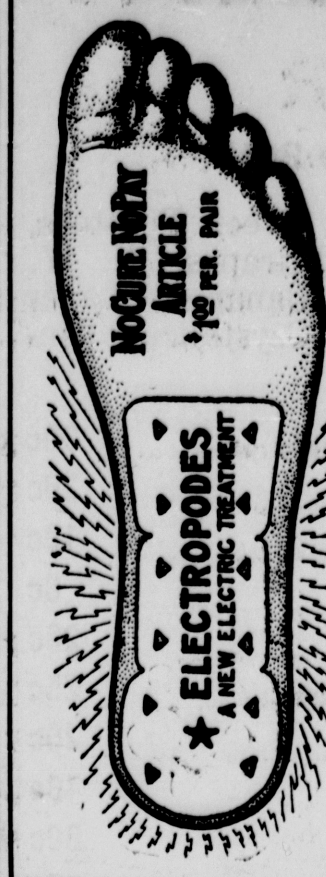

A motion was made directing Pres-
ident Gompers to investigate the Chi-
cago trouble under discussion and re-
port his findings to the executive
council. A motion was adopted order-
ing out of the machinists at present
working for the Otis Elevator com-
pany pending the investigation and
report.

Subsequently a recommendation pro-
viding for an amalgamation of the
elevator constructors with the Inter-
national Association of Machinists was
adopted.

A years truce was declared by the
convention in the dispute between the
brewery workers, firemen, teamsters
and engineers.

How a Bear Fishes.

Few people have had the opportu-
nity of seeing a bear feeding—that is,
in his native state—and fewer still
have seen him fishing. But fish he
does, and in it he displays an amount
of patience and dexterity that is amaz-
ing. He will lie motionless upon an
overhanging log or bank with paw
poised and little beady eyes attentively
scanning the water. Salmon and
trout are his chief delight, and should
one come near enough to the surface
he is snapped out on the bank with a
flip and a twist and vanishes in bruin's
capacious maw.—St. Nicholas.

These Clothes Look New as Long as they Last

A suit that will look smart and hold
shape until it's worn out is worth 100
per cent more than one that looks shabby
and out of shape as soon as the newness
wears off. Isn't that so?

Clothcraft All-Wool Clothes

will wear out in time. But until
their last day, they will hold their
snap and their style.

They are skilfully and honestly
made out of nothing but pure wool
cloth. That's why they last long
and look well as long as they last.
Each suit carries a Signed Guar-
antee that insures you against disap-
pointment.

And they cost no more than
common clothes—\$10 to \$25. They
are the ONLY guaranteed pure
wool clothes at these prices in
America.

If every man in this town knew
how good these wonderful clothes
are, we would have to double the
size of our store. You can find out
how good they are today.

J. F. Murphy & Co.

Nine Tellers Mark a Man.
In olden times when a person died
it was customary to toll the church
bell a certain number of times to in-
dicate whether it was a man, woman or
child. For a woman it was tolled
three times and for a man three times
three times. The stroke of a bell was called
a "teller," and hence it was nine tel-
lers for a man, or, as folks said in those
days, "Nine tellers mark a man." This
saying, which was continued long after
the tolling custom was abolished,
finally became converted into the pres-
ent saying, "Nine tailors make a man,"
which is devoid of sense and reason.

Daring Horsemen.
The Italian cavalrymen are said to
be the finest and most daring horse-
men in Europe.

We are so certain that
itching, bleeding and
protruding Piles can al-
ways be relieved and ab-
solutely cured by this
ointment that we positively guarantee satis-
faction or money refunded.
